A WORD ABOUT NLS

Non-Linear Systems, Inc., originated the digital voltmeter and then continued to be an innovative leader in the field of electronic test equipment. Organized in 1952, NLS has been a major supplier of digital voltmeters and ratiometers to large corporations in the aerospace industry.

Since 1972, NLS has been consumer-oriented. There is a worldwide network of distributors to provide small, portable multimeters, oscilloscopes, counters, frequency meters, temperature meters, and DPM s.

Now — NLS has used that 30 years of experience to enter the world of computers. The prime thought has been to provide the small business and the family with the best value in a microcomputer.

KAYPRO has been engineered to meet the proven standards we have developed to meet the needs of present-day high technology.

THE HARD-DISK PORTABLE

10 MEGABYTES

KAYPRO 10

PORTABLE

In one compact package contained in its own rugged, low-profile carrying case, the KAYPRO 10 is ready to go any time, any place. Just plug it into a standard, grounded outlet, and it's ready to use.

FOR BUSINESS USE

With the Winchester "10 MEG Hard-Disk" drive, there is increased capacity for large files, such as payroll and inventory. And, with the portability of the KAYPRO 10, all the figures you have put in disk storage can go with you into the field.

Using the PERFECT CALC (TM) spreadsheet program, what-if analysis can be done in minutes. Change a significant figure, and PERFECT CALC will instantly refigure the projections.

Sales and profit pictures can be dynamically displayed in graphs and bar charts, using the graphics feature on KAYPRO 10.

Put accounting, purchasing, and production scheduling figures "on disk" to use whenever and wherever you want. You can now keep track of sales performances, commissions, schedules, and sales forecasts. Order processing and the creation of shipping documents is done with speed and consistency.

PERFECT CALC will also do:

- Income statements
- Balance sheets
- Accounts receivable
- Accounts payable
- Depreciation schedules
- Payroll
- Cash flow analyses

FOR WORD PROCESSING

Whether for business, professional, or personal use, KAYPRO 10 with its Perfect Writer software will give you word power by allowing you to produce correspondence and text and check for spelling and typing errors. It will allow you to handle large business mailings with ease by

FOR PROFESSIONAL USE

There are not only the software programs to do fee schedule determination, scientific formula application, and break-even analysis, but, because S-BASIC (TM) has six data types, you can write your own programs on the scientific, technical, and mathematical levels.

FOR PERSONAL USE

You can now use the computer for methods usually available only to business:

- Stock portfolio analysis
- Real estate investments
- Personal expense accounts
- Mailing lists, such as birthday and Christmas cards
- Budget analysis
- Cash flow analysis

VIDEO FEATURES

With the graphic display, you can write your own games or use games already on the market for CP/M (TM) systems.

GRAPHIC DISPLAY

IN ADDITION

CP/M is the disk-operating system which supports the KAYPRO 10. It allows you access to a world of software that is standard in today's market.

S-BASIC is an advanced, structured BASIC language in which you can write your own programs — no matter how sophisticated.

PROFITPLAN is a spreadsheet program especially designed for ease of use in recording and working with large amounts of numbers.

THE PERFECT PACKAGE

Included with the KAYPRO 10 is Perfect Writer, Perfect Speller, Perfect Filer, and Perfect Calc. This package is an integrated system of programs, using the same commands for all programs. You can quickly learn the system using an instruction disk and a training manual.
